HUNS ATTEMPT A NAVAL RAID

ATTACK ON TRANSPORT SERVICE DEFEATED

---FRENCH HOLD GAINS---ROUMANIA'S PERIL

London: Ten German torpedoboat destroyers attempted a raid on the British cross-channel transport service last night. The official statement issued by the admiralty today says two enemy destroyers were sunk and the others driven off. One British destroyer, the Flirt, is missing and the destroyer Nubian is disabled. The enemy sank one empty transport, the Queen. The crew was saved.

Paris: The French made further progress last night in the Verdun region, advancing west and south of the fortress of Vaux. German artillery is violently bombarding Chenois wood and Douamont fort, which were taken by the French in the surprise attack on Tuesday night.

In the Verdun operations this week the French have taken ten commanders of German battalions.

London: Heavy rain continues on the Somme front. There were no infantry actions. Numerous air fights occurred. The French artillery destroyed a Ger-

man ammunition depot near Ab-laincourt.

Bucharest: German forces operating from Transylvania, have reached Kimpolung, twenty miles south of the frontier. On this front and in Dobrudja, the Roumanian troops are struggling desperately to repel the violent attacks of Falkenhayn and Mackensen. Enemy forces are continuing to attack along the whole front in Dobrudja.

London: The subject of Roumania was brought up again in house of commons yesterday. Premier Asquith said: "The military situation in Roumania is engaging the most anxious attention not only of this government, but of those of our Allies. Everything possible is being done to support Roumania."

Brockton, Mass.: Henry Cabot Lodge, ranking Republican member of the senate committee on foreign relations, in a speech last night asserted that President Wilson had added a postscript to the second Lusitania note on June 9, which informed the German

government that the strong phrases of the so-called "strict accountability" note of May 18 "were not to be taken seriously."

Saloniki: Inclement weather is hindering military operations on the various fronts in Macedonia.

Rome: In the Lagarina valley the accurate fire of Italian batteries destroyed the site of enemy headquarters and stores at Isera. Two munitions depots were exploded on the Austrian line in Carso.

Copenhagen: The Dutch government has protested to Berlin against the violation of Holland's neutrality by zeppelins.

Christiania: The Norwegian steamer Lysland was torpedoed and sunk. Relations with Germany are much strained.

Amsterdam: Doctor Bull, an English dentist, was sentenced to a long term of imprisonment for assisting refugees.

Washington: Four Americans were aboard the Welsh Prince, which was torpedoed and sunk without warning on Oct. 3.

OVER \$500 COLLECTED

Complete Returns Show Handsome Total for British Red Cross

The very handsome sum of \$572.37 was realized by the ladies of the Hazelton Red Cross in their canvass of the town and vicinity on "Our Day", for the benefit of the British Red Cross Society. Details of the collections follow:

Yukon Telegraph Employees (2nd to 9th)	\$ 85.00
Hazelton Indians	7.00
Hazelton Hospital	26.30
Hazelton Town	62.50
Hazelton View Mine	10.00
Rocher de Boule Mine	168.00
Amargosa Mine	51.00
Skeena Crossing, Great Ohio Camp, Steam Shovel Camp, and Individuals	37.10
Cedarvale	10.25
Pacific	44.32
Lorne Creek	16.00
Kispiox	8.00
Usk	18.65
Gitwangak	15.75
Carlton & Fetter Mine	12.50
	\$572.37
Less cost of badges	5.00
Net Total	\$567.37

Mrs. E. R. Cox and Mrs. R. J. Rock, who canvassed Rocher de Boule and Skeena Crossing, were splendidly entertained by Mr. and Mrs. D. J. Williams and Mr. and Mrs. B. R. Jones, to whom the thanks of the Society are tendered.

LADIES ENTERTAIN FOR SOLDIERS' AID

The usual success attended the Tea given by the ladies of the W. A. in St. Andrew's Hall on Wednesday afternoon for the benefit of the Soldiers' Aid Christmas Fund. Practically everyone in town dropped in during the afternoon, and all were highly pleased with the refreshments and entertainment furnished by the ladies, who had gone to considerable pains to prepare for the Tea.

The net proceeds, \$44.80, have been handed to the secretary of the Soldiers' Aid.

Will Be a Big Night

Howard Campbell, proprietor of the Hazelton Poolroom, has offered to turn his establishment over to the Soldiers' Aid on Saturday evening, Nov. 4, for the benefit of the Christmas Fund, and the committee has gratefully accepted. On the evening named, from seven to closing time, receipts from the tables will go to the fund, as well as a proportion of sales. All who attend will be shown a good time.

C.P.R. Strike Averted

Winnipeg, Oct. 26:—Government intervention prevented the threatened strike of railwaymen on the C. P. R. The employees will secure increased wages and better working conditions, effective Nov. 1.

CHRISTMAS PARCELS FOR OUR SOLDIERS

The Soldiers' Aid is busy arranging for the sending of a large number of special Christmas parcels to the boys who have gone from Hazelton and district to "do their bit" on the firing line, and none of our representatives will be neglected. To send appropriate gifts a considerable sum in excess of the regular contributions to the Soldiers' Aid will be required. The sums received from the W. A., which is doing splendid work for this cause, have given the Christmas Fund a good start, but the Committee estimates that at least \$200 more will be required. Those who desire to join in sending greetings and comforts to our boys in khaki are requested to hand their contributions to Secretary R. E. Allen as early as possible.

W.A.

A sewing party in connection with the Women's Auxiliary will be held on Thursday next, at 3 p.m., in the Mission House. The President hopes that the ladies who have not yet enrolled as members will take this opportunity of doing so.

The Miner is two dollars a year.

Red Cross Social

The first of a series of informal socials, similar to those of last season, will be held in St. Andrew's Hall on Friday, Nov. 3, at 8 p.m. The program of concert numbers, guessing contests, games, etc., will be concluded at 10, when refreshments will be served. A collection will be taken for the Red Cross.

Ladies are invited to donate cakes, sandwiches, etc. Assistance of this nature will be appreciated by the committee.

Annual Fire Meeting

The annual meeting of Hazelton Fire Association, the organization which provides fire protection for the town, will be held in St. Andrew's Hall on Monday evening, Oct. 30, at 8 sharp. All property-owners and householders are requested to attend. Reports will be presented and officers elected.

Card of Thanks

The President and members of the W. A. wish to express their thanks to the many generous friends who helped to make the Soldiers' Aid Tea a success.

Bulkley Does Well

"Our Day" in the Bulkley Valley district netted \$120 for the British Red Cross.

RETURN OF BIG GAME HUNTERS

The Haswell-Smith party returned this week from a very successful hunting expedition to the headwaters of the Skeena and Stikine. E. A. and John Haswell, with John Utterstrom, the moving picture operator, came here, Erskine Smith being called back earlier by business.

The party secured some fine heads, including a record head of Stone's sheep, measuring 42 inches; a 57-inch moose head, and a caribou head of nearly 60 inches. Moving pictures of Stone's sheep in their native habitat, the first ever taken, were among the trophies of the trip.

Many adventures fell to the lot of the hunters, who have nothing but praise for the game country north of Hazelton. Mr. Utterstrom, who has now spent two seasons in filming the big game of the district, says the moving pictures secured are of exceptional interest.

Hazelton School Second

In the Strathcona Trust competition in physical training, the local school obtained second place in this inspectorate. The trustees have received the school's share of the prize, \$5. J. R. Fuller, lately teacher here, receives \$10.

SATURDAY, OCTOBER 28, 1916.

No. 9

Following is the substance of a bulletin just issued from Ottawa, giving details of the government's policy for the encouragement of the livestock industry in Western Canada:

The Dominion Live Stock Branch will pay reasonable traveling expenses of a farmer, or the authorized agent of a number of farmers, from any section of Canada desiring to purchase one or more carloads of breeding stock or of feeding and stocker cattle in any part of the country.

A systematic effort in Western Canada to conserve cattle suitable for breeding and feeding purposes has been made by providing special facilities for parties wishing to take advantage of this assistance at any of the western stock yards.

The expenses of farmers buying cattle under these conditions at such stock yards will be paid in accordance with the general terms of the policy as stated above, and in addition the services of representatives of the Branch will be available in an advisory capacity if so desired. The actual purchasing, however, must be done by the buyer himself, or through his authorized agent. Under no circumstances will any responsibility in this connection be assumed by any officer of this Branch.

It must be distinctly understood that no assistance under this policy can be rendered when stock is purchased for speculative purposes.

The expenses will cover railroad transportation from the home of the purchaser to the point at which it is expected that the purchase will be made, also hotel and livery expenses (exclusive of automobile hire) for the time which should be sufficient to purchase the consignment.

No assistance in the payment of freight is given, nor is any responsibility assumed by the Branch in connection with the purchase price of the shipment.

The purchaser should keep vouchers for all purchases of two dollars or over, and should include with his account all such vouchers together with a duplicate copy of the receipted shipping bill. The account should be forwarded in duplicate on forms which will be supplied for that purpose.

The purchaser is further required when forwarding his account to include a statement regarding the purchases covered by the accounts, on forms supplied by the Branch. These forms, together with the expense account forms referred to in the last paragraph, may be obtained from the representative of the Branch at the Winnipeg stock yards.

Parties wishing to secure breeding or feeding cattle desiring to take advantage of this policy should make out their applications for this assistance on forms which may be obtained on request from the manager of their local bank, who will be in a position to give further particulars of the scheme. These forms, when completed, should be forwarded to Mr. D. M. Johnson, Markets Representative of the Live Stock Branch, at the Union Stock Yards, St. Boniface, Manitoba.

A Basic Industry

The remarkable economic conditions created by the war have revealed the immensity of the unsuspected industrial opportunities in Canada. Facts hitherto unknown or disregarded are now being considered by the manufacturer, producer and the public with a view to securing greater scientific application, accuracy and economy in industry and the maximum return to Canadian capital and labor. While it is essential to investigate and initiate methods to eliminate waste in production, it is equally important to study the waste in industry due to purely economic conditions and to promote the more efficient utilization of our natural resources to the advantage of the nation.

On account of the comparatively small population of Canada, and the consequently limited home market for our products, basic rather than subsidiary industries should be primarily encouraged. This object having been achieved, subsidiary interests will naturally develop.

Recent developments in the

mineral industry, the products of which are essential to nearly all forms of manufacturing, exemplify the concurrent growth of basic and subsidiary enterprise. The progressive policy of the Consolidated Mining & Smelting Co., Trail, B. C., furnishes a specific instance. For several years this company has mined and smelted lead ores and operated the only large lead refining plant in Canada. Since the war three large Cottrell plants have been installed and are recovering valuable mineral from the smelter gases. Owing to the demand for zinc and copper in the manufacture of munitions, the company has recently installed a zinc plant and is contemplating an electrolytic copper refining plant.

As the zinc process depends upon a supply of sulphuric acid, the company has just completed a sulphuric acid plant, having a capacity of ten tons of acid a day. The sulphuric acid is made from fumes collected from the smelter. Five tons of acid will be used in the lead and zinc refineries and the remainder for commercial purposes. A portion of the sulphuric

acid and refined zinc will probably be used in the manufacture of galvanized iron in British Columbia.

The foregoing developments, actual and proposed, form a splendid example of how the establishment of a basic industry may lead to the growth of subsidiary undertakings.

Copper Strong for Years

Commenting on the recent order for 448,000,000 pounds of copper for the warring nations, Walker, of Boston, commercially known as one of the most noted copper authorities, says:

"This means that the metal situation is in a stronger position than ever previously in the history of the trade. It now appears that they have agreed to pay 26 cents a pound for this immense tonnage and that the profits to the producers on this single transaction will be \$20,000,000. in excess of the aggregate dividend payments of the American copper mining companies during any preceding year.

"The tremendously strong cash position of the producing companies cannot fail to have a steadying influence on the metal market for many months and probably for years to come.

"This transaction makes it quite clear that the Allies see before them a long period of hard fighting."

Vienna: The assassination of Count Stuerghk, the Austrian premier, by Dr. Adler, was purely political. That the premier refused to convene parliament is the reason given by Adler.

Experts say that copper will not go below 25 cents for more than two years.

Hiyu Cranberries

There is an unusually heavy crop of cranberries this season. On Friday and Saturday Mrs. W. H. Holland and Mrs. John Smith each gathered 300 pounds of berries at Two-mile mountain.

Synopsis of Coal Mining Regulations.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

THE MINER WAR BULLETINS

MONDAY, OCT. 23

London: Between the Ancre river and the Pozieres-Bapaume road, on the Somme front, the British troops have checked the offensive of the Germans under Crown Prince Rupprecht of Bavaria, and have themselves resumed the offensive with the return of favorable weather. The operations are on a large scale, and have proved successful. Repulsing the enemy attack, Haig's men pushed forward from 300 to 500 yards. An advance of 5000 yards was made between Lesars and the Schwaben redoubt, which was the scene of an earlier attack by the Germans.

The British captured Regina and Stuff trenches and advanced posts north and northeast of Schwaben redoubt, with several hundred prisoners. This is the most important attack in three weeks.

The troops march wearing their overcoats.

Paris: Heavy attacks on the French positions at Saily-Sailisel, as well as on positions between Biaches and La Maisonette, near Peronne, were generally repulsed. At one point the enemy gained a foothold in the French trenches, but was expelled, with heavy loss.

Further south the French were successful in gaining possession of a wood north of Chaulnes.

The political and military leaders of France and Great Britain held a conference at Boulogne.

London: The Russians have repelled all Teutonic assaults on their lines.

On the Italian front artillery activity is reported.

There is no change in the Roumanian campaign.

The Entente demands that Constantine turn over all war supplies. The Greek army must march southward.

Sheerness: A hostile seaplane which approached a fortified seaport south of the Thames was shot down.

TUESDAY, OCT. 24

London: The British have captured more trenches, which carried them near the Bapaume-Peronne road.

Seven Teuton aeroplanes were brought down and several forced to land in damaged condition. Railway stations were bombed by our airmen.

Berlin admits the retirement of German forces.

During the night there was considerable shelling on our front between Lesars and Gueudecourt.

Our troops now occupy the positions near the tip of two mine craters formed yesterday by the enemy at the bluff south of Ypres, and are satisfactorily establishing their positions.

The British have captured since the beginning of the offensive thirty thousand prisoners, or a little less than fifteen hundred for each of the twenty-one villages taken. These had an average population of three hundred. In addition, Haig's forces have taken 125 guns, 109 trench mortars and trench guns and 429 machine guns. The British have not lost a gun.

The tanks saved the loss of twenty thousand men by the re-

duction of strong positions and machine gun emplacements. Our troops have driven back the Germans on a front of eleven miles for a depth of eight miles on what was considered an impregnable front.

Paris: Four tons of projectiles were dropped by a French air squadron of 24 machines on blast furnaces north of Metz and Thienville stations. Hits were secured on all objectives. Another French flotilla bombarded the factories at Rombach.

French troops fought their way forward in the neighborhood of Saily-Sailisel, capturing the entire Spur No. 128, west of the village.

North of the Somme, toward the end of the day yesterday we carried out a minor operation which was entirely satisfactory. The total number of prisoners taken since Saturday in the Chaulnes sector was 450, including 16 officers.

Petrograd: Austro-German forces made a new attack yesterday, striking north of Brody, near the Volhynian-Galician border. The assault was repulsed.

Enemy attempts to cross the river Boldurka, a tributary of the Stripa, north of Brody, were repelled by our fire.

Along the whole Caucasian front reconnaissance and exchanges of fire are taking place.

Paris: There has been desperate fighting at Cerna, on the Macedonian front, resulting favorably to the Entente Allies. The Bulgarians counter-attacked in force, but were defeated by the Servians.

Petrograd: The Russians and Roumanians in Dobrudja continue their retreat, offering a stubborn resistance to Von Mackensen's army.

London: The German cruiser Muenchen was torpedoed. A Berlin despatch says she was only slightly damaged.

WEDNES., OCT. 25

London: Switching for the time from the Somme offensive, probably as a counter-move to the Teutonic advance in the Dobrudja region, Roumania, the French smashed the German lines north and northwest of Verdun. The operation extended over a front of four and a third miles, the enemy lines being penetrated for the whole distance, while in the center the French gained a depth of two miles, taking the famous village and fort of Douaumont, with 3600 prisoners and quantities of war material.

The remarkable nature of this achievement is best measured by the bare statement that the Germans are now almost exactly where they were on Feb. 26, although they have sacrificed half a million men in efforts to take Verdun in the meantime.

London: More than a thousand yards of German trenches in the region of Gueudecourt and Les Bœufs, north of the Somme, were taken by the British in the fighting of yesterday afternoon.

During the night there was intermittent shelling on both sides. All German counter-attacks were repulsed.

London: The capture of Constantza by the Teutonic forces was not unexpected, nevertheless it

puts a damper on the enthusiasm aroused by the continued success of the Entente Allies in Picardy and at Verdun. At Tchernavoda is the only bridge across the Danube between Belgrade and the Black Sea, and full possession of this by the enemy would open to him the way to Bucharest.

Bucharest: Roumanian troops yesterday made an attack on the whole Oituz front, near the Transylvania-Roumanian border, capturing ten machine guns and several hundred prisoners.

Paris: There is no activity on Struma front, owing to floods.

Servian troops have captured several trenches from the Germans and Bulgarians in the Cerna region, in Macedonia.

London: Frantic with rage at the loss of so many airships, Count Zeppelin is reported to have declared that he will send eighty zeppelins to wreck London.

THURSDAY, OCT. 26

London: The French maintain the important gains made in their sensational drive north of Verdun, and have driven back three successive counter-attacks, with heavy losses to the enemy. Additional ground has been gained east of Fumin wood and north of Chenois. The number of prisoners taken is now 4500.

Fort Vaux is still in German hands, but the new French lines run beyond it on both sides.

Rain is interfering with operations on the Somme front.

General Rawlinson says: "The German lines on the west front can be smashed by continual hammering. The British have not yet reached the zenith of their power. The results of the Entente offensive are satisfactory."

Reports from the Somme indicate that a large number of German soldiers fail to respond to the leadership of their officers.

Paris: Italian cavalry from Southern Albania yesterday formed a junction with the cavalry and artillery of the Entente forces on the Macedonian front.

London: On three sides the Teutonic allies are working with feverish energy in the effort to encompass Roumania. In Dobrudja the Roumanians and Russians continue their retirement, having evacuated Chernavoda. Buchar-

est advices say the Roumanians have been forced to fall back slightly in Transylvania.

Petrograd: South of Dorna Watra, near the frontier junction of Bukowina, Transylvania, and Roumania, the Russians dislodged the Austro-German forces from a series of heights, taking prisoners and two machine guns.

Copenhagen: Five more Norwegian ships have been sunk by German submarines.

New York: The new British loan will be for \$300,000,000, at 5½ per cent.

FRIDAY, OCT. 27

Paris: The Germans, after shelling the positions recently won by the French in the Vaux and Douaumont sector of the Verdun front, delivered four more counter-attacks, but like all enemy efforts since the big drive by the French on Tuesday, they were successfully withstood.

The number of prisoners now exceeds five thousand. Enormous quantities of war material have been taken.

London: The enemy made a violent attack on the British troops holding the Stuff trench, north of the famous Stuff redoubt, recently won by our men. The Germans were repulsed.

Elsewhere on the front there was little activity.

Before retreating from Chernavoda, according to a Bucharest despatch, the Roumanians blew up the bridge spanning the Danube at that point. Little knowledge can be gained of the situation in that section of the war zone.

Petrograd: Russian troops in the wooded Carpathians are successfully withstanding Teutonic assaults. An attack on the height northwest of Capul mountain was repulsed. In the direction of Zlochovin, in the Zygen region, the enemy attacked in small force and was repulsed.

Saloniki: The Servians have captured several heights on the left bank of the Cerna.

French cavalry, supported by infantry, occupied two villages southwest of Lake Doiran, and took the bridge at Zvezda.

Berlin: The admiralty announces that during September 141 hostile merchantmen were sunk or taken by submarines and that 39 neutral ships were sunk.
